International Women's day at APC

Women's Day 2023: International Women's Day falls on March 8 annually. Know all about the history, significance, celebrations, the theme for this year, and more about Women's Day inside.

Every year, March marks Women's History Month - an annual month-long celebration highlighting the contributions of women to events in history and contemporary society. On March 8, people commemorate International Women's Day. It observes cultural, political and socioeconomic women-made achievements in various fields. Women's Day also marks a call for a gender-equal world that is free of bias, stereotypes and discrimination and is diverse, equitable, and inclusive while differences are valued and celebrated. Keep scrolling to know more about this day, including its date, history, significance, celebration, and more.

International Women's Day 2023 Theme:

This year, the theme for International Women's Day is Embrace Equity or #EmbraceEquity. The International Women's Day website says, "Equity isn't just a nice-to-have, it's a must-have. A focus on gender equity needs to be part of every society's DNA. And it's critical to understand the difference between Equity and Equality. The aim of the IWD 2023 #EmbraceEquity campaign theme is to get the world talking about 'Why equal opportunities aren't enough'."

While "Equality means each individual or group of people is given the same resources or opportunities," the IWD website said, "Equity recognizes that each person has different circumstances and allocates the exact resources and opportunities needed to reach an equal outcome."

The program was organized by Maviya Patel, followed by speech of Dr. Muzaffar Farooque. Thank you to Management, Principal, teaching and non-teaching staff for their corporation.
